

FIG.1

FIG. 2 is a perspective view of the device 100 in a closed position. The device 100 includes a first arm 2a, a second arm 2b, and a hinge assembly 4. The first arm 2a is connected to the second arm 2b at the hinge assembly 4. The first arm 2a includes a first end 2a1 and a second end 2a2. The second arm 2b includes a first end 2b1 and a second end 2b2. The hinge assembly 4 includes a first hinge member 4a and a second hinge member 4b. The first hinge member 4a is connected to the first arm 2a at the first end 2a1. The second hinge member 4b is connected to the second arm 2b at the first end 2b1. The first hinge member 4a and the second hinge member 4b are connected to each other at the second end 2a2/2b2. The device 100 is shown in a closed position, where the first arm 2a and the second arm 2b are folded together. The device 100 is also shown in an open position, where the first arm 2a and the second arm 2b are extended away from each other. The device 100 is a mechanical device, such as a hinge or a latch, used for connecting two objects together. The device 100 is made of metal or plastic. The device 100 is shown in a perspective view, which means it is shown from a three-dimensional angle. The device 100 is shown in a closed position, which means it is shown when the first arm 2a and the second arm 2b are folded together. The device 100 is also shown in an open position, which means it is shown when the first arm 2a and the second arm 2b are extended away from each other. The device 100 is a mechanical device, such as a hinge or a latch, used for connecting two objects together. The device 100 is made of metal or plastic. The device 100 is shown in a perspective view, which means it is shown from a three-dimensional angle. The device 100 is shown in a closed position, which means it is shown when the first arm 2a and the second arm 2b are folded together. The device 100 is also shown in an open position, which means it is shown when the first arm 2a and the second arm 2b are extended away from each other.
